MERE MORBID FANCIES.

The Star seems to be completely terrorized by its anticipation of the awful things that women are going to do as soon as they get that dangerous toy, the ballot, once safely into their clutches. It is melancholy to see a journal of so much progressiveness and ability as our valued contemporary the victim of what the general public must regard as mere morbid fancies, and it is a pity that nothing can be done to relieve this condition of mental tension. As to the Curfew law, confining husbands within the restraints of home, it seems very unlikely that any such harsh abridgment of the liberty of nocturnal prowlers will ever be attempted by the gentler sex. And even if the worst happens, what harm will be done if "the extravagant and erring spirit" who now waits until cock-crow before hieing to his confine is compelled to go home at 10 o'clock, as a sober and discreet husband should? At any rate, if the future women voters shall pass any such law, it will probably be aimed chiefly at hostile editors.

We advise the Star to get into accord immediately.

COXEY'S ARMY.

We publish this morning a budget of foreign news which came in a sailing vessel by way of Kahului. Coxey's army is still marching on Washington, and Senator Peffer has introduced into the Senate a resolution providing that a hearing be granted the troops when they arrive. This movement of unemployed from all parts of the country upon the national capital is one of the important signs of the times, and if it really culminates in the arrival of a genuine "army," will be a very impressive and dramatic event. The demand made by these men upon the State is not merely a result of restlessness and misery. It springs from a growing social consciousness, a consciousness which recognizes a real organic unity in society, with a consequent responsibility for all its members. The Government as the organ of the whole, is justly looked to for a remedy to ills which certainly ought not to exist. The recognition of these great responsibilities by society and by the State, is growing daily more general, and it brings with it the hope of great and comprehensive reforms. The 20th century, upon the threshold of which we are standing, will undoubtedly witness some fundamental changes in institutional life, and a corresponding amelioration in social conditions.

A PUBLIC TRUSTEE.

It would be an excellent thing to follow the example of New Zealand, and establish here an office of "Public Trust" for the investment of the funds of all classes of people, the security of the fund to be guaranteed by the Government. The plan works well in New Zealand, where some very bold experiments in social matters have been made. It guarantees absolute security to the helpless, the ignorant; to widows and orphans. The investments made in that colony by the officer who manages the Public Trust are made in many ways, but with great care and discretion. If errors are committed the State becomes responsible. One of the most serious difficulties which arises when individual trustees manage estates is, that on the death of the trustee, there is apt to be confusion, and, often, long litigation. There is no such difficulty where the trust is continuous and absolutely guaranteed by the people.

The establishment of such a trust here might be the means of influencing from abroad large sums of money for investments. People who have money to invest will not trust it to individual trustees, unless they are personally acquainted with them. If, however, there were a Public Trustee whose investments were guaranteed by the State, there would be a strong disposition to make investments here, so long as the American States do not adopt the plan of creating such an office.

THE GROWTH OF LAWLESSNESS.

A number of events have happened lately which draw attention to a very serious growth in the spirit and deeds of lawlessness in this city. The disgraceful fight in the bar-room of the Hawaiian Hotel is only one of a series of affairs which have taken place lately. The reputation of the Hawaiian Hotel as a suitable resort for respectable people will be seriously impaired unless the management takes some stringent measures against the ruffians who frequent the bar-room.

Another thing which requires the attention of the police is the prize fighting which is beginning to make Honolulu a center for "sports." The law and public sentiment both join in the condemnation of this brutal amusement, and it should be sternly suppressed. If it is permitted to go on, the cause can be nothing but the indifference and acquiescence of the authorities. It cannot be that the police are ignorant of what everyone else knows, and if a crowd can gather by pre-arrangement in a liquor saloon or public hall to see two men pound each other with their fists until one of them, in the refined language of the ring, is "knocked out," the police can go there also and stop the exhibition.

Prize fighting is coming to be pretty generally recognized as a low and unworthy employment, degrading to those who participate in it, but much more degrading to those who look on. The prize fighter himself, though generally a ruffian, must have many good qualities—pluck, endurance, control of his temper. He may be good-natured and generous. The spectator, on the other hand, requires nothing but a taste for brutal amusements. Neither the prize fighters nor their patrons are wanted here.

CRICKET ON SATURDAY.

The Champions Defeated the Honolulu.

The match which was played at Makiki on Saturday between an eleven from the Champion and the Honolulu Cricket Club resulted in another victory for the visitors. Play commenced shortly after 3 p. m., the Honolulu Club going to the bat and being disposed of for a total of thirty-seven runs. The Champion team then commenced their inning and finished at 5:45, having by that time made a total of fifty-eight for the loss of nine wickets. The game throughout was most interesting. O. J. Prentiss for the visiting team batting in brilliant form and putting together his score of thirty in short order. The batting of G. Wenham for the home team was excellent, he having secured six of the wickets. Hatfield bowled finely for the Honolulu, accomplishing the feat of taking three wickets in three successive balls. The following is the score:

HONOLULU CRICKET CLUB.	
J. Westbrook, c. Filmer, b. Prentiss	0
D. Ross, b. Wenham	10
Dr. Ings, c. Nugent, b. Wenham	6
P. Lishman, c. Benwell, b. Wenham	3
A. R. Hatfield, b. Prentiss	5
J. Lightfoot, c. Benwell, b. Wenham	4
G. Burnside, c. Filmer, b. Wenham	0
Rev. V. H. Kitcat, b. Walter	0
F. B. Auerbach, not out	5
L. von Tempsky, stp'd Glover, b. Wenham	0
P. Lishman, b. Walter	0
Extras	4
Total runs	37
CHAMPION ELEVEN.	
O. J. Prentiss, b. Lishman	30
Corp. Glover, run out	9

AUCTIONEER.

National Cane Shredder

PATENTED UNDER THE LAWS OF
THE HAWAIIAN ISLANDS.

The attention of Planters and Agents is called to the following letter from Mr. JOHN A. SCOTT, Manager of the Hilo Sugar Co., regarding the working of the National Cane Shredder, which he has just introduced into the Mill of that Company:

WAINAE, HILO, HAWAII,
January 23d, 1894.

HON. WM. G. IRWIN, HONOLULU, H. I.
DEAR SIR:—In reply to yours of the 16th inst. regarding the National Cane Shredder furnished by the Universal Mill Co. of New York, and erected by the Hilo Sugar Co. this past season,

I would beg to say, that it has now been in operation day and night during the past three weeks working on plant cane, and also hard ratoons, and it is giving me the greatest satisfaction. The more I see of its capabilities, the better pleased I am that I put it in, as I am satisfied that it will repay the original outlay in a short time, in saving of labor, higher extraction, etc.

It is shredding from 350 to 400 tons of cane every 22 hours with the greatest ease, and it could shred a much larger quantity if necessary. It delivers the shredded cane in an even uniform feed to the three roller mill, which receives it without the intervention of any labor, and as the cane is thoroughly shredded or disintegrated it relieves the mill of a great deal of strain, thus reducing the liability of broken shafts, gearing, etc.

There is a saving of four (4) men daily on the mill, as only one man is required to regulate the amount of cane delivered by the carrier to the shredder. It has increased the extraction from 4 to 5 per cent.

The economical use of steam is generally a serious consideration in adding new machinery, as in most mills the boiler power is taxed to its highest limit, as it was in this mill, and any increased demand necessitates an additional boiler. But I find that the shredder and the three roller mill engines combined use no more steam than the three roller mill engine did when working on whole cane, while doing better work and more off, and owing to the uniform feed on the mill, the engine demands very little attention.

The Megass from the shredded cane makes superior fuel, and the firemen have less difficulty in maintaining a uniform pressure of steam than formerly.

I will be pleased to have a call from parties interested, as it is necessary to see the machine at work to fully appreciate its capabilities.

I remain, very truly yours,

(Sig.) JOHN A. SCOTT,

Manager Hilo Sugar Co.

Plans for erection of these shredders may be seen at the office of the Agents,

where prices and other particulars may also be obtained.

April 28, 1894.

We have a lot of Burnley Dry Batteries for electric work that we will sell very cheap. These batteries are adapted for using on door bells, in telephones or any other electrical work where the wet battery is not required. We have also a full stock of insulated wire and incandescent lamps, which we sell at a trifle below the regular market price. If you use electricity for lighting your stores or dwellings we would be pleased to supply you with globes when your others burn out. If you use kerosene for illuminating and wish to give it up and adopt more modern methods we have some Electroliers with kerosene lamps on them so that you will never be caught in the dark. All electroliers do not have the kerosene combination, ours have, consequently the best place to buy one is from us.

Just as soon as this rainy weather is over your will want to give your house a coat of paint and Hendry's Ready Mixed is the coat you want. We've sold hundreds of gallons of this paint and it gives satisfaction whenever it is used. We guarantee every tin of it and if you do not find it as we represent it return it to us and we will refund the money. For people who prefer to mix their own colors we have a full stock of White Lead, Oils and Colors. The Wertheim Sewing Machine has taken the lead among such articles here just as it did in Australia. We have a few of the second lot left and more on the way. A machine that will sew either the chain or locked stitch is the one you want in your house. The Wertheim will do it.
